Chaitanya Koratamaddi

Senior Principal Product Manager, Oracle APEX | Database Tools

Do you ever wonder how to develop a fully functional cloud app in minutes?

Are you a developer, architect, analyst, citizen developer, cloud developer, DBA, decision maker, low-code enthusiast, sales, pre-sales, cloud engineer, marketing, or
<https://blogs.oracle.com/apex/post/oracle-apex-foundations-learning-path-is-now-available>

Are you a developer, architect, analyst, citizen developer, cloud developer, DBA, decision maker, low-code enthusiast, sales, pre-sales, cloud engineer, marketing, or any one who is completely new to the low-code space?

If you answered 'YES', then we have some good news for you!

We are thrilled to announce the release of the [Oracle APEX Foundations](#) Learning Path with Oracle University!!! This self-paced course can be taken at your convenience and pace, and is absolutely FREE. This 3+ hour expert training is delivered to you directly from the Oracle APEX Product Management Team.

[Oracle APEX](#) is the world's most popular low-code application development platform that allows you to build secure, scalable enterprise applications 20X faster with 100X less code. The [APEX Developer Foundations](#) course is especially designed and developed for beginners who are new to [Oracle APEX](#) or low-code application development. Note that this course is validated on the latest [Oracle APEX](#).

Once you complete the learning path, you will gain an understanding on the features, capabilities, and components of APEX. Learning the basic foundations of APEX will equip you to create a fully functional cloud app in minutes. An interesting point to note is that, to learn and build an app in APEX, all you will ever need is a Web Browser.

So, what will you learn in this course?

In this course, you will:

- Provision an APEX Service instance and create an APEX workspace
- Learn what is low-code application development with APEX, why APEX, and APEX use cases
- Understand the different components of APEX such as App Builder and SQL Workshop
- Create your first APEX application on Oracle Cloud
- Explore the different types of Reports you can create with APEX
- Create additional application components such as Forms, Maps, Calendars and Charts
- Manage Application Security
- Deploy your APEX application

Without further delay, we encourage you to go ahead and register for this [FREE online course](#) on Oracle University. Upon completion of this course, you will receive a badge (shown below) from Oracle. Don't forget to share your badge on social media and tag us using [#orclAPEX](#).

Oracle APEX Foundations

We hope you enjoy the course as much as we enjoyed creating it!

- APEX Product Management Team
